

An introduction to .308 TR

The .308 Target Rifle

The Breech Flag

- Should be kept in the rifle AT ALL TIMES
- **Only remove** when set up **on the firing point**

Fullbore vs Smallbore

.22 Long Rifle

.308 Winchester

Jacket

Glove

Ear Pro

Sunhat

Sling

Distances

- For Smallbore we shoot 25yards & 50yards (mainly)
- For Fullbore we shoot 300yards, 500yards, 600yards, 900 yards (mainly)

The Natural Aim Point

Before you shoot we will spend time getting your shooting position correct

- The rifle should **sit into your shoulder**,
- Your **left arm** should be under the barrel and **kept still** as possible
- Your **head** should sit **comfortably on the stock** so you can **look straight** down the sights

- The rifle should naturally point at the target
 - Tell us if you're having to push the rifle to point straight

- The weight of the rifle should be supported by your sling NOT by your arm
 - Tell us if your arm gets tired or sore and we will adjust accordingly
